

Independent Auditor's Report

To the Members of
Sarvadeva Greenpark Private Limited
Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of **Sarvadeva Greenpark Private Limited** (the Company) CIN – **U01403WB2013PTC190530**, which comprise the balance sheet as at March 31, 2021, and the statement of profit and loss (including other comprehensive income), statement of changes in equity and statement of cash flows for the year then ended, and a summary of the significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 (the 'Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including Indian Accounting Standards ('Ind AS') specified under section 133 of the Act, of the state of affairs (financial position) of the Company as at March 31, 2021, and its profit and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for opinion

We conducted our audit of financial statements in accordance with the Standards on Auditing ('SAs') specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the financial statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (the 'ICAI') together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matter described below to be the key audit matter to be communicated in our report.

Impact of COVID – 19

Due to COVID 19 pandemic, we could not carry out normal audit procedures by visiting the client office and audit was carried out using "Work from Home" approach. This is considered as Key Audit Matter, since alternate audit procedures were performed for carrying out audit.

Due to "work from home" approach adopted, we performed following alternative audit procedures:

- Various data and confirmation were received either electronically through email or through data sharing on drive.
- For various audit procedures, reliance was placed on scanned copies of original document shared with us electronically.
- Interview/ discussion with client via video conferencing / call conferencing and other verbal communications.

Information other than the Financial Statement and Auditor's Report thereon

The Company's Board of Directors are responsible for the other information. The other information comprises the information included in the Company's annual report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

The Company's management and Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the state of affairs, profit/loss and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

The Financial Statements of the company as at and for the year ended 31st March 2020 was audited by another auditor whose report dated 12th June 2020, expressed an unqualified opinion on those financial statements. The balances as on 31st March 2020, as per the audited financial statement, regrouped and/or reclassified wherever necessary, have been considered as opening balances for the purpose of these financial statements.

Report on other legal and regulatory requirements

1. As required by the Companies (Auditor's Report) Order, 2016 (the 'Order') issued by the Central Government in terms of section 143 (11) of the Act, we give in the 'Annexure A' a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
 - c) The balance sheet, the statement of profit and loss (including other comprehensive income), the statement of changes in equity and the statement of cash flows dealt with by this Report are in agreement with the books of account;
 - d) In our opinion, the aforesaid financial statements comply with the Ind AS specified under section 133 of the Act.
 - e) On the basis of the written representations received from the directors as on March 31, 2021 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2021 from being appointed as a director in terms of Section 164(2) of the Act;
 - f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in 'Annexure B'; and
 - g) No managerial remuneration has been paid during the year.
 - h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. There are no pending litigations which would impact the financial position of the Company.
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

Annexure - A to the Auditor's Report

The Annexure referred to in Independent Auditor's Report to the members of **M/s. SARVADEVAGREENPARK PRIVATE LIMITED** on the financial statements for the year ended 31st March 2021, we report that:

- (i)
- a) The Company has maintained proper records showing full particulars, including quantitative details and situation of property, plant and equipment.
 - b) The Company has a regular programme of physical verification of its fixed assets by which fixed assets are verified in a phased manner during the year. No material discrepancies were noticed on such verification. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets
 - c) The title deed of all the immovable properties are held in the name of the company.
- (ii) The Company does not have any Inventories. Accordingly the provisions of the clause (ii) of Para 3 of Companies (Auditor's Report) Order, 2016 are not applicable.
- (iii) The Company has granted unsecured loan to one body corporate covered in the register maintained under section 189 of the Companies Act, 2013 ('the Act').
- (a) In our opinion and according to the information and explanation given to us, the terms and conditions on which the loans had been granted to the body corporate listed in the register maintained under Section 189 of the Act were not, prima facie, prejudicial to the interest of the Company.
 - (b) In case of the loan granted to the body corporates listed in the register maintained under section 189 of the Act, the terms of arrangement do not stipulate any repayment schedule.
 - (c) There are no overdue amount in respect of the loans granted to the body corporates listed in the register maintained under section 189 of the Act.
- (iv) In our opinion and according to the information and explanations given to us, the Company has complied with the provisions of section 185 and 186 of the Act, with respect to the loans and investments made, guarantees given or security provided.
- (v) The Company has not accepted any deposits from the public.
- (vi) The Central Government has not specified maintenance of cost records under section 148 (1) of the Companies Act, 2013 in respect of Company's services. Accordingly the provisions of the clause 3(vi) of Companies (Auditor's Report) Order, 2016 is not applicable.
- (vii) (a) As explained to us, the Provident Fund Scheme and Employees' State Insurance Scheme are not applicable to the Company. According to the information and explanations given to us and on the basis of our examination of the records of the Company, amounts deducted/ accrued in the books of account in respect of undisputed statutory dues including income-tax, sales tax, value added tax, duty of custom duty of excise, goods and service tax, service tax, cess and other material statutory dues have been regularly deposited during the year by the Company with the appropriate authorities.

According to the information and explanations given to us, no undisputed amounts payable in respect of income tax, sales tax, value added tax, duty of customs, duty of excise, goods and service tax, service tax, cess and other material statutory dues were in arrears as at 31 March 2021 for a period of more than six

months from the date they became payable.

- (b) According to the information and explanations given to us, there are no material dues in respect of sales tax, service tax, duty of customs, duty of excise or value added tax which have not been deposited with the appropriate authorities on account of any dispute
- (viii) The Company has no loans or borrowings payable to a financial institution or a bank or government and no dues payable to debenture holders during the year. Accordingly the provisions of the clause 3(viii) of the Order are not applicable
- (ix) The Company did not raise any money by way of term loans during the year. The Company, being a Private Limited company, cannot raise any money by way of initial public offer or further public offer (including debt instruments). Accordingly, paragraph 3 (ix) of the Order is not applicable.
- (x) According to the information and explanations given to us and based on our examination of the records of the Company, no material fraud by the Company or any fraud on the Company by its officers or employees has been noticed or reported during the course of our audit.
- (xi) According to the information and explanations given to us and based on our examination of the records, the Company has not paid/provided any amount for managerial remuneration. Accordingly, paragraph 3(xi) of the Order is not applicable.
- (xii) In our opinion and according to the information and explanations given to us, the Company is not a Nidhi company. Accordingly, paragraph 3(xii) of the Order is not applicable.
- (xiii) According to the information and explanations given to us and based on our examination of the records of the Company, all transactions with the related parties are in compliance with sections 188 of the Act where applicable and details of such transactions have been disclosed in the financial statements as required by the applicable Ind AS. Further in our opinion the company is not required to constitute audit committee under section 177 of the Act.
- (xiv) According to the information and explanations given to us and based on our examination of the records of the Company, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year.
- (xv) According to the information and explanations given to us and based on our examination of the records of the Company, the Company has not entered into non-cash transactions with directors or persons connected with him. Accordingly, paragraph 3(xv) of the Order is not applicable.
- (xvi) The Company is not required to be registered under section 45-1A of the Reserve Bank of India Act 1934.

Annexure - B to the Auditor's Report

Report on the Internal Financial Controls with reference to the aforesaid Financial Statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to financial statements of **SARVADEVAGREENPARK PRIVATE LIMITED** ("the Company") CIN – **U01403WB2013PTC190530**, as of 31 March 2021 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls with reference to financial statements (the "Guidance Note") and the Standards on Auditing specified under section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both issued by ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial control with reference to financial statements and their operating effectiveness. Our audit of internal financial control with reference to financial statements included obtaining an understanding of internal financial control with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial control with reference to financial statements.

Meaning of Internal Financial Controls with reference to financial statements

A company's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as

necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to financial statements

Because of the inherent limitations of internal financial control with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial control with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

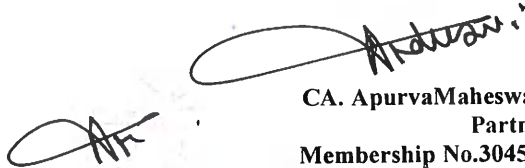

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial control with reference to financial statements and such internal financial control with reference to financial statements were operating effectively as at 31 March 2021, based on the internal control with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the Institute of Chartered Accountants of India.

(DIN: 07139553)

1 (a) Corporate Information

Sarvadeva Greenpark Private Limited ("the Company") is a private limited Company domiciled in India and registered under the provisions of the Companies Act, 1956. The Company is a subsidiary of Kiran Vyapar Limited and is engaged in the business of rental services.

(b) Basis of preparation of financial statements

General information and statement of compliance with Indian Accounting Standards

These financial statements have been prepared in accordance with Indian Accounting Standards notified under section 133 of the Companies Act 2013, read together with the Companies (Indian Accounting Standards) Rules, 2015 (as amended) ('Ind AS').

These financial statements have been prepared and presented under the historical cost convention, on the accrual basis of accounting except for certain financial assets and financial liabilities that are measured at fair values at the end of each reporting period, as stated in the accounting policies set out below. The accounting policies have been applied consistently over all the periods presented in these financial statements.

Current/Non-current classification

The Company presents all its assets and liabilities in the balance sheet based on current or non-current classification. Assets and liabilities are classified as current or non-current as per the Company's normal operating cycle and other criteria as set out in the Division II of Schedule III to the Act. Based on the nature of products and the time between acquisition of assets for processing and their realization in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current or non-current classification of assets and liabilities. Deferred tax assets and liabilities are classified as non-current assets and non-current liabilities, as the case may be.

Any asset or liability is classified as current if it satisfies any of the following conditions:

- i. the asset/liability is expected to be realized/settled in the Company's normal operating cycle;
 - ii. the asset is intended for sale or consumption;
 - iii. the asset/liability is held primarily for the purpose of trading;
 - iv. the asset/liability is expected to be realized/settled within twelve months after the reporting period;
 - v. the asset is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting date;
 - vi. in the case of a liability, the Company does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting date.
- All other assets and liabilities are classified as non-current.

For the purpose of current/non-current classification of assets and liabilities, the Company has ascertained its normal operating cycle as twelve months. This is based on the nature of services and the time between the acquisition of assets or inventories for processing and their realization in cash and cash equivalents.

(c) Presentation of financial statements

Financial assets and financial liabilities are generally reported gross in the balance sheet. They are only offset and reported net when, in addition to having an unconditional legally enforceable right to offset the recognised amounts without being contingent on a future event, the parties also intend to settle on a net basis in all of the following

- The normal course of business.
- The event of default.
- The event of insolvency or bankruptcy of the Company and/or its counterparties.

(d) Significant accounting judgements, estimates and assumptions

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amount of revenues, expenses, assets and liabilities, and the accompanying disclosures, as well as the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Fair value of financial instruments

The fair value of financial instruments is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e., an exit price) regardless of whether that price is directly observable or estimated using another valuation technique. When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be derived from active markets, they are determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this is not feasible, estimation is required in establishing fair values. Judgements and estimates include considerations of liquidity and model inputs related to items such as credit risk (both own and counterparty), funding value adjustments, correlation and volatility.

Provisions and other contingent liabilities

The Company operates in a regulatory and legal environment that, by nature, has a heightened element of litigation risk inherent to its operations. As a result, it is involved in various litigation, arbitration and regulatory investigations and proceedings in the ordinary course of the Company's business. When the Company can reliably measure the outflow of economic benefits in relation to a specific case and considers such outflows to be probable, the Company records a provision against the case. Where the probability of outflow is considered to be remote, or probable, but a reliable estimate cannot be made, a contingent liability is disclosed. Given the subjectivity and uncertainty of determining the probability and amount of losses, the Company takes into account a number of factors including legal advice, the stage of the matter and historical evidence from similar incidents. Significant judgement is required to conclude on these estimates.

2 Significant accounting policies**2.01 Revenue recognition**

Revenue (other than for those items to which Ind AS 109 Financial Instruments are applicable) is measured at fair value of the consideration received or receivable. Ind AS 115 Revenue from contracts with customers outlines a single comprehensive model of accounting for revenue arising from contracts with customers and supersedes current revenue recognition guidance found within Ind ASs. Revenue from contracts with customers is recognized on transfer of control of promised goods or services to a customer at an amount that reflects the consideration to which the Company is expected to be entitled to in exchange for those goods or services.

The Company recognises revenue from contracts with customers based on a five step model as set out in Ind AS 115:

Step 1: Identify contract(s) with a customer: A contract is defined as an agreement between two or more parties that creates enforceable rights and obligations and sets out the criteria for every contract that must be met.

Step 2: Identify performance obligations in the contract: A performance obligation is a promise in a contract with a customer to transfer a good or service to the customer.

Step 3: Determine the transaction price: The transaction price is the amount of consideration to which the Company expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.

Step 4: Allocate the transaction price to the performance obligations in the contract: For a contract that has more than one performance obligation, the Company allocates the transaction price to each performance obligation in an amount that depicts the amount of consideration to which the Company expects to be entitled in exchange for satisfying each performance obligation.

Step 5: Recognise revenue when (or as) the Company satisfies a performance obligation.

Revenue towards satisfaction of a performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to that performance obligation. The transaction price of goods sold and services rendered is net of variable consideration on account of various discounts and schemes offered by the Company as part of the contract. This variable consideration is estimated based on the expected value of outflow. Revenue (net of variable consideration) is recognized only to the extent that it is highly probable that the amount will not be subject to significant reversal when uncertainty relating to its recognition is resolved.

Dividend income

Dividend income is recognised when the Company's right to receive the payment is established, it is probable that the economic benefits associated with the dividend will flow to the entity and the amount of the dividend can be measured reliably.

Sale of goods

Revenue from sale of products is recognized when the control on the goods have been transferred to the customer. The performance obligation in case of sale of product is satisfied at a point in time i.e., when the material is shipped to the customer or on delivery to the customer, as may be specified in the contract.

Rental income

Rental income is recognised on a straight-line basis over the term of the lease, except for contingent rental income which is recognised when it arises and where scheduled increase in rent compensates the lessor for expected inflationary costs.

2.02 Financial instruments**Point of recognition**

Financial assets and liabilities, with the exception of loans, debt securities, deposits and borrowings are initially recognised on the trade date, i.e., the date that the Company becomes a party to the contractual provisions of the instrument. This includes regular way trades: purchases or sales of financial assets that require delivery of assets within the time frame generally established by regulation or convention in the market place. Loans are recognised when funds are transferred to the customers' account. The Company recognises debt securities, deposits and borrowings when funds reach the Company.

Initial recognition

The classification of financial instruments at initial recognition depends on their contractual terms and the business model for managing the instruments, as per the principles of the Ind AS. Financial instruments are initially measured at their fair value, except in the case of financial assets and financial liabilities recorded at FVTPL, transaction costs are added to, or subtracted from, this amount. Trade receivables are measured at the transaction price. When the fair value of financial instruments at initial recognition differs from the transaction price, the Company accounts mentioned below:

When the transaction price of the instrument differs from the fair value at origination and the fair value is based on a valuation technique using only inputs observable in market transactions, the Company recognises the difference between the transaction price and fair value in net gain on fair value changes. In those cases where fair value is based on models for which some of the inputs are not observable, the difference between the transaction price and the fair value is deferred and is only recognised in profit or loss when the inputs become observable, or when the instrument is derecognised.

Subsequent measurement of financial liabilities

All financial liabilities of the Company are subsequently measured at amortized cost using the effective interest method. Under the effective interest method, the future cash payments are exactly discounted to the initial recognition value using the effective interest rate. The cumulative amortization using the effective interest method of the difference between the initial recognition amount and the maturity amount is added to the initial recognition value (net of principal repayments, if any) of the financial liability over the relevant period of the financial liability to arrive at the amortized cost at each reporting date. The corresponding effect of the amortization under effective interest method is recognized as interest expense over the relevant period of the financial liability. The same is included under finance cost in the Statement of Profit and Loss.

Subsequent measurement of financial assets

For subsequent measurement, the Company classifies a financial asset in accordance with the below criteria:

- i. The Company's business model for managing the financial asset; and
- ii. The contractual cash flow characteristics of the financial asset.

Based on the above criteria, the Company classifies its financial assets into the following categories:

- (a) Financial assets measured at amortized cost
- (b) Financial assets measured at fair value through other comprehensive income (FVTOCI)
- (c) Financial assets measured at fair value through profit or loss (FVTPL)

(a) Financial assets measured at amortized cost:

A financial asset is measured at the amortized cost if both the following conditions are met:

- (i) The Company's business model objective for managing the financial asset is to hold financial assets in order to collect contractual cash flows; and
- (ii) The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount

This category applies to cash and cash equivalents, other bank balances, trade receivables, loans and other financial assets of the Company. Such financial assets are subsequently measured at amortized cost using the effective interest method. Under the effective interest method, the future cash receipts are exactly discounted to the initial recognition value using the effective interest rate. The cumulative amortization using the effective interest method of the difference between the initial recognition amount and the maturity amount is added to the initial recognition value (net of principal repayments, if any) of the financial asset over the relevant period of the financial asset to arrive at the amortized cost at each reporting date. The corresponding effect of the amortization under effective interest method is recognized as interest income over the relevant period of the financial asset. The same is included under other income in the Statement of Profit and Loss. The amortized cost of a financial asset is also adjusted for loss allowance, if any.

(b) Financial assets measured at FVTOCI:

A financial asset is measured at FVTOCI if both of the following conditions are met:

- (i) The Company's business model objective for managing the financial asset is achieved both by collecting contractual cash flows and selling the financial assets; and
- (ii) The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

This category applies to certain investments in debt and equity instruments. Such financial assets are subsequently measured at fair value at each reporting date. Fair value changes are recognized in the Statement of profit and loss under 'Other Comprehensive Income (OCI)'. However, the Company recognizes interest income and impairment losses and its reversals in the Statement of Profit and Loss. On de-recognition of such financial assets, cumulative gain or loss previously recognized in OCI is reclassified from equity to the Statement of Profit and Loss, except for instruments which the Company has irrevocably elected to be classified as equity through OCI at initial recognition, when such instruments meet the definition of definition of Equity under Ind AS 32 Financial Instruments: Presentation and they are not held for trading. The Company has made such election on an instrument by instrument basis.

Gains and losses on these equity instruments are never recycled to profit or loss. Dividends are recognised in the statement of profit or loss as dividend income when the right of the payment has been established, except when the Company benefits from such proceeds as a recovery of part of the cost of the instrument, in which case, such gains are recorded in OCI. Equity instruments at FVOCI are not subject to an impairment assessment.

(c) Financial assets measured at FVTPL:

A financial asset is measured at FVTPL unless it is measured at amortized cost or at FVTOCI as explained above. This is a residual category applied to all other investments of the Company excluding investments in subsidiary and associate companies. Such financial assets are subsequently measured at fair value at each reporting date. Fair value changes are recognized in the Statement of Profit and Loss.

Financial assets or financial liabilities held for trading:

The Company classifies financial assets as held for trading when they have been purchased or issued primarily for short-term profit making through trading activities or form part of a portfolio of financial instruments that are managed together, for which there is evidence of a recent pattern of short-term profit taking. Held-for-trading assets and liabilities are recorded and measured in the balance sheet at fair value. Changes in fair value are recognised in net gain on fair value changes.

Interest and dividend income or expense is recorded in net gain on fair value changes according to the terms of the contract, or when the right to payment has been established. Included in this classification are debt securities, equities, and customer loans that have been acquired principally for the purpose of selling or repurchasing in the near term.

De-recognition:

(a) Financial asset:

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognised (i.e. removed from the Company's balance sheet) when any of the following occurs:

- i. The contractual rights to cash flows from the financial asset expires;
- ii. The Company transfers its contractual rights to receive cash flows of the financial asset and has substantially transferred all the risks and rewards of ownership of the financial asset. A regular way purchase or sale of financial assets has been derecognised, as applicable, using trade date accounting.
- iii. The Company retains the contractual rights to receive cash flows but assumes a contractual obligation to pay the cash flows without material delay to one or more recipients under a 'pass-through' arrangement (thereby substantially transferring all the risks and rewards of ownership of the financial asset);
- iv. The Company neither transfers nor retains substantially all risk and rewards of ownership and does not retain control over the financial asset.

In cases where Company has neither transferred nor retained substantially all of the risks and rewards of the Financial asset, but retains control of the financial asset, the Company continues to recognize such financial asset to the extent of its continuing involvement in the financial asset. In that case, the Company also recognizes an associated liability. The financial asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

On de-recognition of a financial asset, (except as mentioned in ii above for financial assets measured at FVTOCI), the difference between the carrying amount and the consideration received is recognized in the Statement of Profit and Loss.

(b) Financial liability:

A financial liability is derecognised when the obligation under the liability is discharged, cancelled or expires. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a de-recognition of the original liability and the recognition of a new liability. The difference between the carrying value of the original financial liability and the consideration paid is recognised in profit or loss.

Impairment of financial assets:

In accordance with Ind AS 109, the Company applies expected credit loss ('ECL') model for measurement and recognition of impairment loss for financial assets. ECL is the weighted-average of difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the Company expects to receive, discounted at the original effective interest rate, with the respective risks of default occurring as the weights. When estimating the cash flows, the Company is required to consider:

- All contractual terms of the financial assets (including prepayment and extension) over the expected life of the assets.
- Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

Trade receivables

In respect of trade receivables, the Company applies the simplified approach of Ind AS 109, which requires measurement of loss allowance at an amount equal to lifetime expected credit losses. Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument.

Other financial assets:

In respect of its other financial assets, the Company assesses if the credit risk on those financial assets has increased significantly since initial recognition. If the credit risk has not increased significantly since initial recognition, the Company measures the loss allowance at an amount equal to 12-month expected credit losses, else at an amount equal to the lifetime expected credit losses.

When making this assessment, the Company uses the change in the risk of a default occurring over the expected life of the financial asset. To make that assessment, the Company compares the risk of a default occurring on the financial asset as at the balance sheet date with the risk of a default occurring on the financial asset as at the date of initial recognition and considers reasonable and supportable information, that is available without undue cost or effort, that is indicative of significant increases in credit risk since initial recognition. The Company assumes that the credit risk on a financial asset has not increased significantly since initial recognition if the financial asset is determined to have low credit risk at the balance sheet date.

Offsetting of financial instruments:

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

2.03 Fair Value

The Company measures its financial instruments at fair value in accordance with the accounting policies mentioned above. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

All assets and liabilities for which fair value is measured or disclosed in the standalone financial statements are categorized within the fair value hierarchy that categorizes into three levels, described as follows, the inputs to valuation techniques used to measure value. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1 inputs) and the lowest priority to unobservable inputs (Level 3 inputs).

- Level 1 (unadjusted) - Those where the inputs used in the valuation are unadjusted quoted prices from active markets for identical assets or liabilities that the Company has access to at the measurement date. The Company considers markets as active only if there are sufficient trading activities with regards to the volume and liquidity of the identical assets or liabilities and when there are binding and exercisable price quotes available on the balance sheet date.

- Level 2 - Those where the inputs that are used for valuation and are significant, are derived from directly or indirectly observable market data available over the entire period of the instrument's life. Such inputs include quoted prices for similar assets or liabilities in active markets, quoted prices for identical instruments in inactive markets and observable inputs other than quoted prices such as interest rates and yield curves, implied volatilities, and credit spreads. In addition, adjustments may be required for the condition or location of the asset or the extent to which it relates to items that are comparable to the valued instrument. However, if such adjustments are based on unobservable inputs which are significant to the entire measurement, the Company will classify the instruments as Level 3.

- Level 3 - Those that include one or more unobservable input that is significant to the measurement as whole.

For assets and liabilities that are recognized in the financial statements at fair value on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization at the end of each reporting period and discloses the same.

2.04 Income Taxes

Tax expense is the aggregate amount included in the determination of profit or loss for the period in respect of current tax and deferred tax.

Current tax

Current tax is the amount of income taxes payable in respect of taxable profit for a period. Taxable profit differs from 'profit before tax' as reported in the Statement of Profit and Loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible under the Income Tax Act, 1961. Current tax is measured using tax rates that have been enacted by the end of reporting period for the amounts expected to be recovered from or paid to the taxation authorities.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit under Income tax Act, 1961.

Deferred tax liabilities are generally recognized for all taxable temporary differences. However, in case of temporary differences that arise from initial recognition of assets or liabilities in a transaction (other than business combination) that affect neither the taxable profit nor the accounting profit, deferred tax liabilities are not recognized. Also, for temporary differences if any that may arise from initial recognition of goodwill, deferred tax liabilities are not recognized.

Deferred tax assets are generally recognized for all deductible temporary differences to the extent it is probable that taxable profits will be available against which those deductible temporary difference can be utilized. In case of temporary differences that arise from initial recognition of assets or liabilities in a transaction (other than business combination) that affect neither the taxable profit nor the accounting profit, deferred tax assets are not recognized. The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow the benefits of part or all of such deferred tax assets to be utilized.

Deferred tax assets and liabilities are measured at the tax rates that have been enacted or substantively enacted by the balance sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled.

The Company has not recognised a deferred tax liability for all taxable temporary differences associated with investments in subsidiaries and associates, and interests in joint arrangements, except to the extent that both of the following conditions are satisfied:

- the parent, investor, joint venture or joint operator is able to control the timing of the reversal of the temporary difference, and
- it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

2 Significant accounting policies (cont'd)

2.04 Income Taxes (cont'd)

Presentation of current and deferred tax:

Current and deferred tax are recognized as income or an expense in the Statement of Profit and Loss, except when they relate to items that are recognized in Other Comprehensive Income, in which case, the current and deferred tax income/expense are recognized in Other Comprehensive Income. The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously. In case of deferred tax assets and deferred tax liabilities, the same are offset if the Company has a legally enforceable right to set off corresponding current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same tax authority on the Company.

2.05 Provisions and contingencies

The Company recognizes provisions when a present obligation (legal or constructive) as a result of a past event exists and it is probable that an outflow of resources embodying economic benefits will be required to settle such obligation and the amount of such obligation can be reliably estimated. If the effect of time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not require an outflow of resources embodying economic benefits or the amount of such obligation cannot be measured reliably. When there is a possible obligation or a present obligation in respect of which likelihood of outflow of resources embodying economic benefits is remote, no provision or disclosure is made.

2.06 Cash and Cash Equivalents

Cash and cash equivalents for the purpose of Cash Flow Statement comprise cash and cheques in hand, bank balances, demand deposits with banks where the original maturity is three months or less and other short term highly liquid investments.

2.07 Lease accounting

The Company has adopted Ind AS 116 - Leases w.e.f. 1 April 2019, using the modified retrospective method. The Company has applied the standard to its leases with the cumulative impact recognised on the date of initial application i.e., 1 April 2019. Accordingly, previous period information has not been restated.

The Company's lease asset classes primarily consist of leases for land and buildings. The Company assesses whether a contract is or contains a lease, at inception of a contract. A contract is, or contains, a lease if it conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

- (i) the contract involves the use of an identified asset;
- (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease; and
- (iii) the Company has the right to direct the use of the asset.

Recognition and initial measurement

At lease commencement date, the Company recognises a right-of-use asset ("ROU") and a lease liability on the balance sheet. The right-of-use asset is measured at cost, which is made up of the initial measurement of the lease liability, any initial direct costs incurred by the Company, an estimate of any costs to dismantle and remove the asset at the end of the lease (if any), and any lease payments made in advance of the lease commencement date (net of any incentives received).

Subsequent measurement

The Company depreciates the right-of-use assets on a straight-line basis from the lease commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The Company also assesses the right-of-use asset for impairment when such indicators exist.

At lease commencement date, the Company measures the lease liability at the present value of the lease payments unpaid at that date, discounted using the interest rate implicit in the lease if that rate is readily available or the Company's incremental borrowing rate. Lease payments included in the measurement of the lease liability are made up of fixed payments (including in substance fixed payments) and variable payments based on an index or rate. Subsequent to initial measurement, the liability will be reduced for payments made and increased for interest. It is re-measured to reflect any reassessment or modification, or if there are changes in the in-substance fixed payments. When the lease liability is re-measured, the corresponding adjustment is reflected in the right-of-use asset.

Presentation

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows. The Company has elected to account for short-term leases and leases of low-value assets using the practical expedients. Instead of recognising a right-of-use asset and lease liability, the payments in relation to these are recognised as an expense in the Statement of Profit and Loss on a straight-line basis over the lease term.

2.08 Segment Reporting

The Company is in a single business segment (primary segment) of rental services. The entire revenues are billable within India and there is only one geographical segment (secondary segment).

2.09 Events after reporting date

Where events occurring after the balance sheet date provide evidence of conditions that existed at the end of the reporting period, the impact of such events is adjusted within the financial statements. Otherwise, events after the balance sheet date of material size or nature are only disclosed.

2.10 Property, plant & equipment and Investment Property

Measurement at recognition

An item of property, plant and equipment that qualifies as an asset is measured on initial recognition at cost. Following initial recognition, items of property, plant and equipment are carried at its cost less accumulated depreciation and accumulated impairment losses.

The cost of an item of property, plant and equipment comprises of its purchase price including import duties and other non-refundable purchase taxes or levies, directly attributable cost of bringing the asset to its working condition for its intended use and the initial estimate of decommissioning, restoration and similar liabilities, if any. Any trade discounts and rebates are deducted in arriving at the purchase price. Cost includes cost of replacing a part of a plant and equipment if the recognition criteria are met. Items such as spare parts, stand-by equipment and servicing equipment that meet the definition of property, plant and equipment are capitalized at cost and depreciated over their useful life. Costs in nature of repairs and maintenance are recognized in the Statement of Profit and Loss as and when incurred.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if

Investment Property consists of freehold land held by the group to earn rentals or capital appreciation. The Company follows cost model for measurement of investment

Depreciation

Depreciation on each part of an item of property, plant and equipment is provided using the written down value method based on the useful life of the asset as prescribed in Schedule II to the Act. Depreciation is calculated on a pro-rata basis from the date of installation till date the assets are sold or disposed. Leasehold improvements are amortised over the underlying lease term on a straight line basis.

De-recognition

The carrying amount of an item of property, plant and equipment or investment property is derecognized on disposal or when no future economic benefits are expected from its use or disposal. The gain or loss arising from the de-recognition of an item of property, plant and equipment is measured as the difference between the net disposal proceeds and the carrying amount of the item and is recognized in the Statement of Profit and Loss when the item is derecognized.

2.11 Impairment of non-financial assets

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing the value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

For assets excluding goodwill, an assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Company estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of profit or loss unless the asset is carried at a revalued amount, in which case, the reversal is treated as a revaluation increase.

2.12 Earnings per equity share

Basic earnings per share is computed by dividing the net profit for the period attributable to the equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events that have changed the number of outstanding equity shares, without a corresponding change in the resources. For the purpose of calculating diluted earnings per share, net profit for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares. As on the balance sheet date, the Company has no dilutive potential equity shares.

(d) Terms/ rights attached to equity shares

Equity Shares

The Company has only one class of equity shares having a par value of ₹ 10 per share and confer similar right as to dividend and voting. In the event of liquidation of the Company, the holders of the equity shares will be entitled to receive remaining assets of the company, after distribution of all preferential amounts. The distribution will be in proportion to the number of equity shares held by the shareholders.

Preference Shares

The Company has only one class of Non-cumulative participating compulsorily convertible preference shares of face value of ₹ 100 per share. The preference share carry a preferential right to receive dividend of 8% in case of payments of dividend to equity share holders and shall stand increased to the rate of dividend paid to equity share holder subject to a maximum of 12%. The Preferential shares shall be compulsorily convertible at par within 20 years from the date of allotment being 17 July 2013 or earlier on such date as may be fixed by the Board of Directors, after giving not less than one month prior notice.

The Preference shares shall have, on winding up, a preferential right to the repayment of capital paid up there on in preference to the equity share, but shall not have any such right to participate in the surplus, if remaining, after payment of entire capital.

19 Fair value measurement**(a) Category wise classification of financial instruments:**

Particulars	Hierarchy	As at	
		31 March 2021	31 March 2020
A. Financial assets:			
(i) Measured at amortised cost			
Loans	Level 3	60.24	0.24
Cash and cash equivalents	Level 3	13.34	67.25
(ii) Carried at FVTPL			
Investments	Level 1	3.28	3.09
Total financial assets		76.85	70.58
B. Financial liabilities			
(i) Measured at amortised cost			
Other financial liabilities	Level 3	18.96	17.56
Total financial liabilities		18.96	17.56

(b) Fair value hierarchy

The fair value of financial assets and liabilities are included at the amount that would be received to sell an asset or paid to transfer a liability in an orderly market between market participants at the measurement date. Methods and assumptions used to estimate the fair values are consistent in all the years. Fair value of financial instruments referred to in note (a) above has been classified into three categories depending on the inputs used in the valuation technique. The hierarchy gives the highest priority to quoted prices in active markets for identical assets and liabilities and lowest priority to unobservable entity specific inputs.

The categories used are as follows:

- Level 1: quoted prices (unadjusted) in active markets for financial instruments.
- Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data rely as little as possible on entity specific estimates.
- Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

(c) Fair value of assets and liabilities measured at cost/amortised cost

The carrying amount of financial assets and financial liabilities measured at amortised cost are a reasonable approximation of their fair values since the Company does not anticipate that the carrying amount would be significantly different from the values that would be eventually received or settled. Management assessed that fair values of cash and cash equivalents, loans to related parties (repayable on demand), other financial assets and other financial liabilities approximate their carrying amounts due to the short term maturities of these instruments.

(This space has been intentionally left blank.)

20 Financial risk management

Company's business activities are exposed to a variety of financial risks like credit risk, market risks and liquidity risk. Company's senior management is responsible for establishing and monitoring the risk management framework within its overall risk management objectives and strategies approved by the Board of Directors. Such risk management strategies and objectives are established to identify and analyze potential risks faced by the Company, set and monitor appropriate risk limits and controls, periodically review the changes in market conditions and assess risk management performance. Any change in Company's risk management objectives and policies need approval of its Board of Directors.

(a) Credit risk

Credit risk refers to risk that a counterparty will default on its contractual obligations resulting in financial loss to the Company. Credit risk arises primarily from financial assets such as other balances with banks, loans and other receivables.

i) Other financial instruments

Credit risks from other financial instruments includes mainly cash and cash equivalents and deposits with banks. Such risks are managed in accordance with Company's overall investment policy approved by its Board of Directors. Investments of surplus funds are made in short term debt/liquid mutual funds of rated fund houses having the highest credit rating and in short term time deposits of reputed banks with a very strong financial position. Investment limits are set for each mutual fund and bank deposits. Risk concentration is minimized by investing in a wide range of mutual funds/bank deposits. These investments are reviewed by the Board of Directors on a regular basis.

ii) Price risk

Price risk is the risk that the fair value or future cash flows will fluctuate due to change in market prices. The Company is exposed to price risk arising from its short term investments in debt or liquid mutual funds. Such risks are managed in accordance with Company's overall investment policy approved by its Board of Directors. Investment limit in each fund is specified. All purchase or sale of mutual funds are reviewed by the Board of Directors on a quarterly basis. Company assesses that as returns from short term debt or liquid mutual funds are steady and depends on interest rates or market yield, there is very remote chance of any significant fluctuation in their fair values which can materially impact Company's future cash flows.

(b) Liquidity risk

Liquidity risk is the risk that the Company may not be able to meet its contractual obligations associated with its financial liabilities. The Company manages its liquidity risk by preparing and continuously monitoring business plans or rolling cash flow forecasts which ensures that the funds required for carrying on its business operations and meeting its financial liabilities are available in a timely manner and at an optimal cost. The Company plans to meet the contractual obligations from its internal accruals and also maintains sufficient fund based and non-fund based credit limits with banks. Additionally, surplus funds generated from operations are parked in short term debt or liquid mutual funds and bank deposits which can be readily liquidated when required.

The following table shows the remaining contractual maturities of financial liabilities at the reporting date. The amounts reported are on gross and undiscounted basis and includes contractual interest payments.

Contractual maturity of financial liabilities	Upto 1 year	1 year to 3 year	3 year to 5 year	Total
As at 31 March 2021				
Other financial liabilities	0.24	18.72	-	18.96
As at 31 March 2020				
Other financial liabilities	0.54	-	17.02	17.56

(c) Capital management

For the purpose of Company's capital management, capital includes issued equity share capital, preference share capital and retained earnings less cash and cash equivalents. The primary objective of capital management is to maintain an efficient capital structure to reduce the cost of capital, support corporate expansion strategies and to maximize shareholder's value. Company has fund based credit facilities with banks from which it borrows during peak seasons to meet its working capital requirements. Further, the Company borrows funds from its group Companies at market rates, as and when required for managing its working capital requirements.

21 Based on guiding principles in Ind AS 108 - "Operating Segments," the primary business segment of the Company is "rental services". As the Company operates in a single primary business segment, disclosure requirements are not applicable. The Company caters to the domestic market and accordingly there is no reportable geographical segment.

22 MSME Note

There is no reportable amount of dues on account of principal or interest or any such payments during the year as required by Micro Small and Medium Enterprises Development Act, 2006 in respect of Micro Enterprises and Small Enterprises as defined in the Act.

23 Impact of Coronavirus (COVID-19) on Financial Reporting - Accounting year ended 31st March, 2021

Consequent to the outbreak of the COVID-19 pandemic, the Indian Government announced a lockdown in March 2020. Subsequently, the national lockdown was lifted by the Government, but regional lockdowns continue to be implemented in areas with a significant number of COVID-19 cases. The impact of COVID-19, including changes in customer behavior and pandemic fears, as well as restriction of business and individual activities led to significant volatility in global and Indian markets and a significant decrease in global and local economic activities. The extent to which COVID-19 pandemic, including the current "second wave" that has significantly increased the number of cases in India, will continue to impact the Company's performance and will depend on ongoing as well as future developments which are highly uncertain, including, among other things, any new information concerning the severity of the COVID-19 pandemic and any action to contain its spread or mitigate its impact whether government-mandated or elected by us.

The Company believes that it has considered all the possible impact of the known events arising out of COVID-19 pandemic in the preparation of financial results. However, the impact assessment of COVID-19 is a continuing process given its nature and duration. The Company will continue to monitor any material changes to future economic conditions.

24 The Figures for the previous periods have been regrouped/rearranged wherever considered necessary to conform current period classification.
